

Web Design Fundamentals

Dining – book table

Project: Project Dining

Student: Jessica Henry

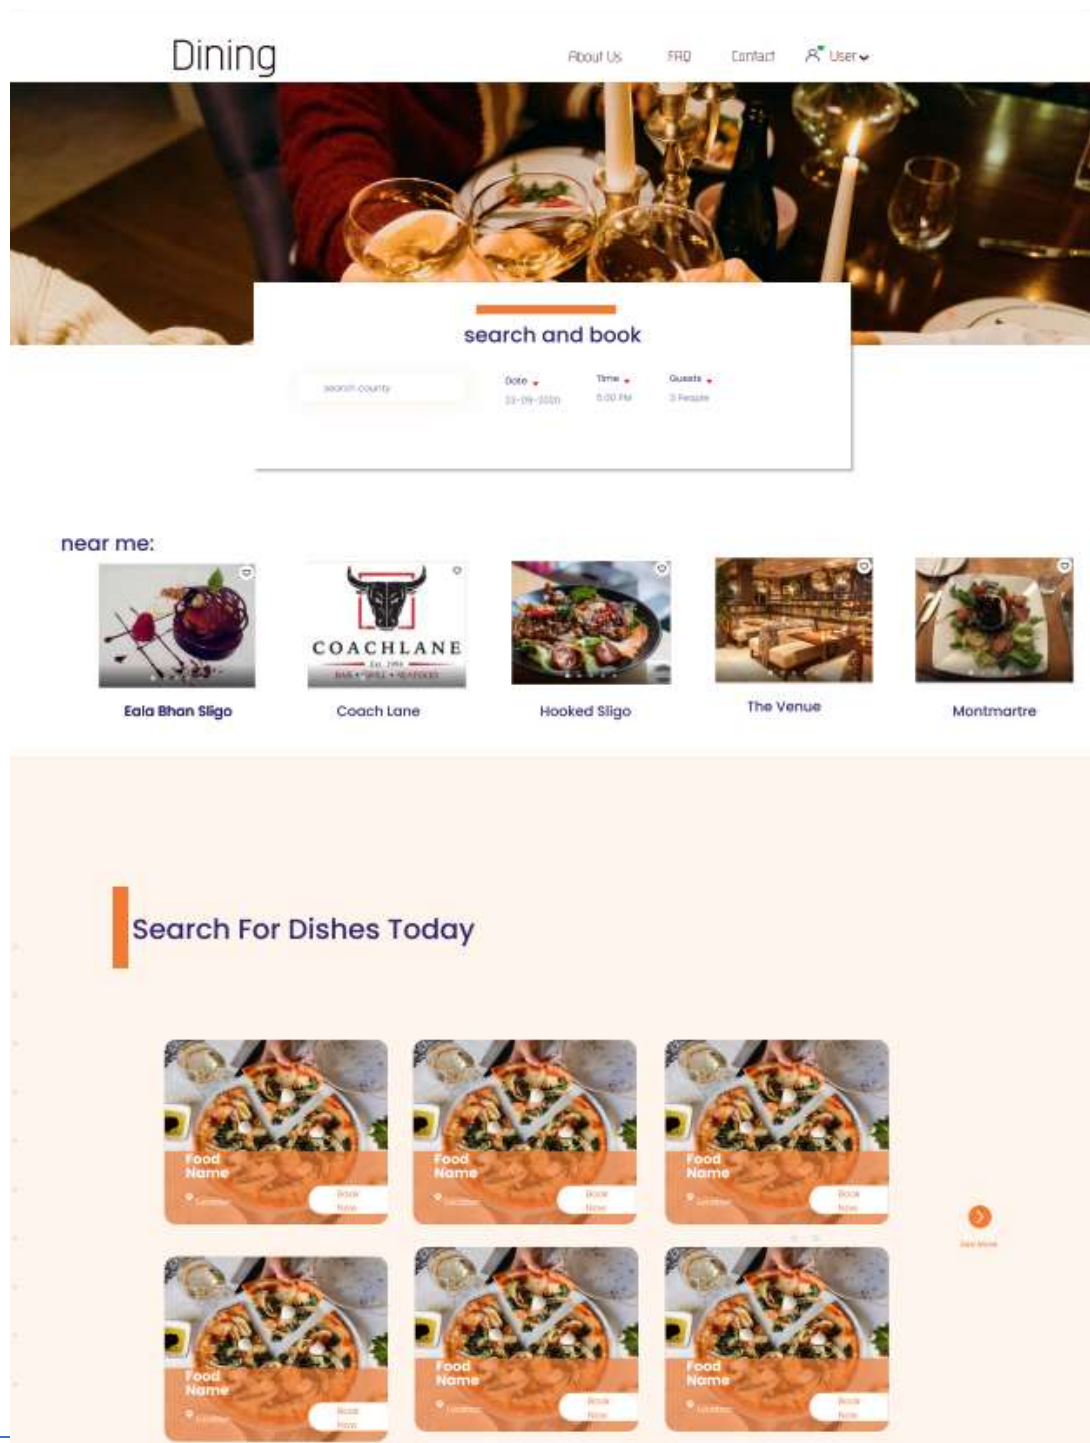

Email: Jessica.henry@mail.itsligo.ie

<https://henry-jessica.github.io/Dining/index.html>

Initial proposal sketched

the initial prototype was divided into 3 main colours of the site plus 2 auxiliary colours. Some things have changed since the development of the site started. Firstly, the initial photo contains alcoholic drinks, so it was decided that it will be changed by a rustic restaurant table.

Was created a folder called Project – Index, About, FAQ and Contact tambem foi criado tres pastas, um para imagen – img , style css – style e uma com documentacoes de prototipagem.

Name	Status	Date modified	Type	Size
img	✓	18/04/2021 20:25	File folder	
Prototype	✓	18/04/2021 21:30	File folder	
style	✓	18/04/2021 02:44	File folder	
about.html	✓	18/04/2021 20:27	Chrome HTML Do...	11 KB
contact.html	✓	18/04/2021 19:48	Chrome HTML Do...	5 KB
faq.html	✓	18/04/2021 15:56	Chrome HTML Do...	10 KB
index.html	✓	18/04/2021 21:10	Chrome HTML Do...	11 KB

All pages contain:

- ✓ HTML5 standards and page layout structure
- ✓ Meta data – description, keywords and author
- ✓ Include font family for body of page
- ✓ Appropriate use of External Style Sheet – Recommended CSS
- ✓ Appropriate Example using Internal Styling on HTML page (an example)
- ✓ Appropriate use of Headings (h1, h2, h3, h4)
- ✓ <section>
- ✓ Background image
- ✓ Favicon and logo
- ✓ Footer information include Copyright© year and footer menu
- ✓ CSS class and Id -properly used.
- ✓ Favicon Logo
- ✓ Images
- ✓ Standard colour for all pages
- ✓ H1, H2, H3, H4 - Respecting the order of priority

Index Contains

- ✓ Internal Styling
- ✓ Inline Styling
- ✓ Contact Form
- ✓ Verify Data collect using using <http://foo.com> method “get”.

About Contains

- ✓ Google maps
- ✓ Youtube Video
- ✓ List ordered and unordered
- ✓ Aside
- ✓ 4 Columns – section
- ✓ External Link
- ✓ Internal Link
- ✓ Article
- ✓ Reference all sources

FAQ Contains

- ✓ List ordered and unordered
- ✓ Table and data information
- ✓ External Link
- ✓ Internal Link

Contact Contains

- ✓ Contact Form
- ✓ Verify Data collect using using <http://foo.com> method “get”.

Index Details

The index page has some important elements to characterize a search company. On the first page, a form was created where the user enters the information, and the County field and the Seated field are mandatory to be. The body is divided into the following sections header, nav, main section 80% of header, nav, footer and 75% my main, sections, lists.

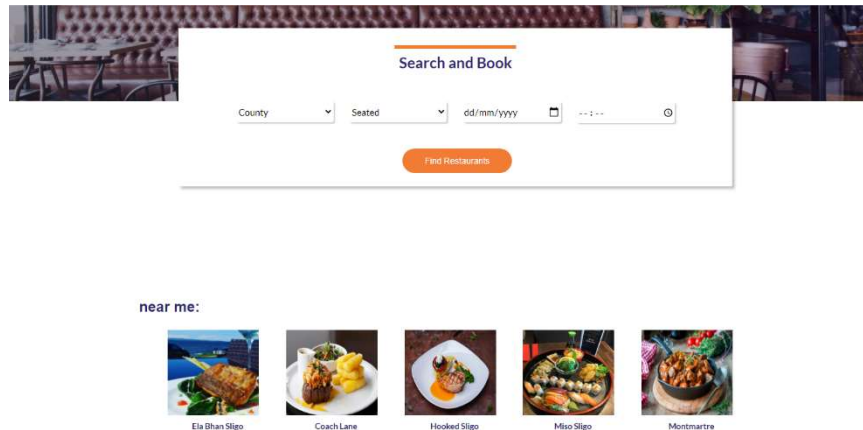

- Head has keywords: “Dining, restaurant, book restaurants, download dining app, special offers, wonderful dishes”.

All keywords are in the index. Also, in the index, external responsive pages were redirected to optimize the SEO.

MAIN CONTENT

The main content will display images organized on the first screen, a block with images of typical gourmet restaurant dishes, 75% of the browser.

Background image is inside the main. this decision was made, because it was visually cleaner with the background image following the same size as the rest of the site.

it was necessary to create a container to better organize the user's search form.

```

20 <!--inline styling for image to the logo-->
21 <a href="index.html"></a>
22 </section>
23 <nav class = "navbar">
24 <ul>
25 <!--Unordered List -->
26 <li> <a id="screen_active" href = "index.html">Home</a></li>
27 <li> <a href="about.html">About Us</a></li>
28 <li> <a href="faq.html">FAQ</a></li>
29 <li> <a href="contact.html">Contact</a></li>
30 </ul>
31 </nav>
32 </header>
33 <main>
34 <!-- section main background photo-->
35 <section class="main-background"></section>

```

```

62 .main-background{
63   height: 300px;
64   background: linear-gradient(90deg,rgba(47,45,65,.5),rgba(47,10,65,.3)),url('../img/fancyRestaurant.jpg');
65   display: block;
66   position: relative;
67   top: 0;
68   right: 0;
69   bottom: 0;
70   left: 0;
71   background-position: 100%;
72   background-repeat: no-repeat;
73   background-size: cover;
74   height: 26rem;
75   opacity: 1;
76 }

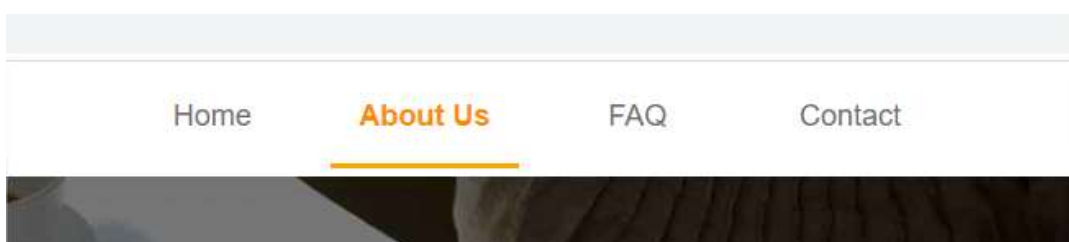

```

Class = rectangle is just a detail, wee orange thing in the container, just aesthetics in the form to be close to the initial prototype. Relative position to keep the container on top of the background image.

< Footer >

The footer and header have a Nav that informs the user of the screen that he is currently on.

Header:

Footer

About

The about screen has 2 lists, one sorted where it is listed as Trending Articles and the other list is just below. The two lists are inside a <aside> sidebar. The text content containing the company's information was distributed within an article. The texts have external links to responsive and quality pages. In the middle of the page, an image containing a button was inserted, the button has a mouse effect: hover. Still on the about screen, a youtube video was inserted containing information about food promotions

FAQ

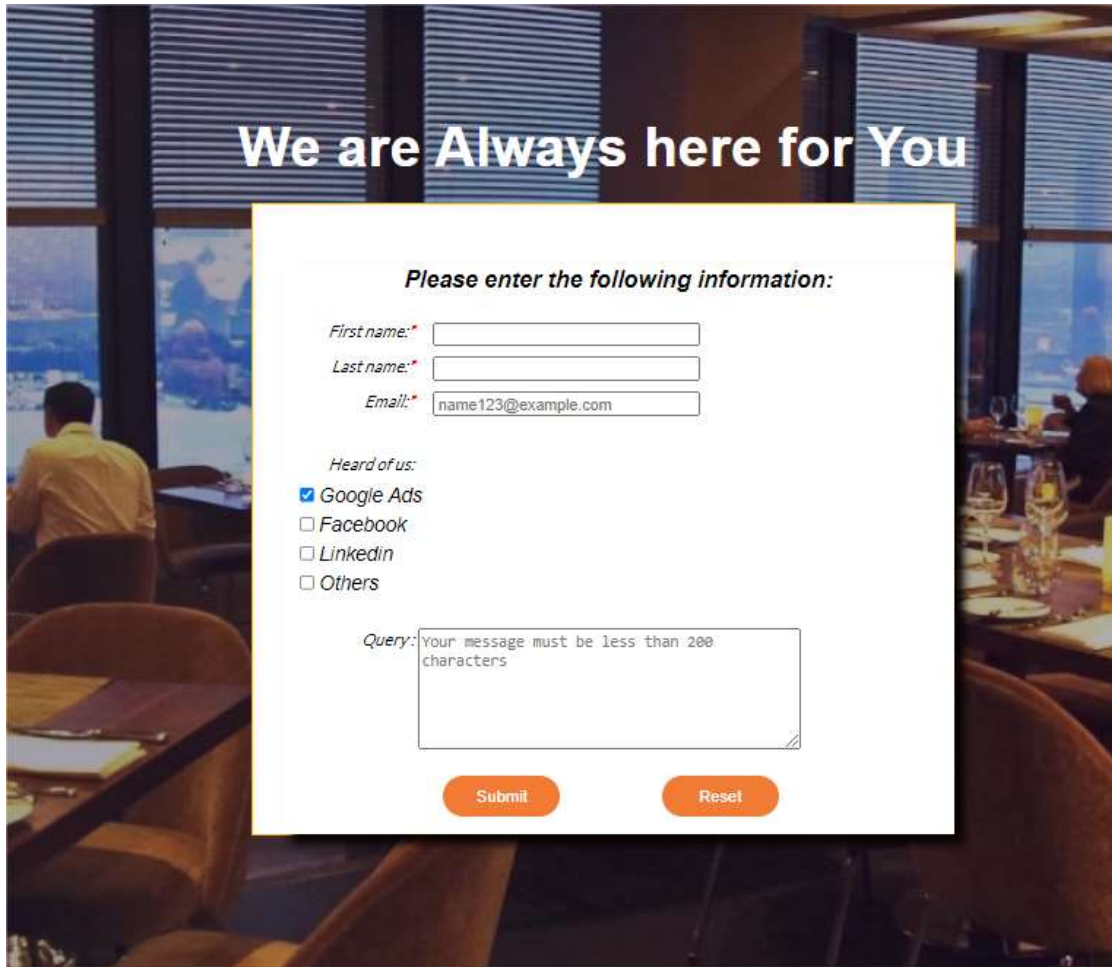

POINT VALUES IN IRELAND:

1000 POINTS	1800 POINTS	2000 POINTS	3600 POINTS	4000 POINTS	5000 POINTS

Conclusion

It was the first time that I built something from scratch, and I am happy to see a quick result. Some commands can see the code taking shape. I use two screens to develop and during the work I realized that depending on the screen I am developing some attributes need to be resized. When I learn more about fluidity, I intend to make this entire site fluid.
